

Tired of manual reporting and Building commentary reports?

There's a Bundle for that!

80% of agencies say that they are using AI-driven insights to improve their marketing campaigns.**

Imagine all your data presented in an interactive liveboard.

From social channel performance and conversion rates to KPI metrics and campaign tracking.

Every piece of your marketing data in one place, ready to be reported on. It's the dream, right? With Bundle it's a reality.

With one click of a button you can automate all your reports in seconds giving you back hours each week to focus on other areas of your business.

Bundle can save you one week per month of reporting.

Bundle for Reporting

Designed to unlock the commercial value in your data, empowering your business to make informed decisions and achieve sustainable growth.

We understand the pain points of sifting through vast amounts of data and the challenges of traditional reporting processes. That's why our amazing team at Bundle is dedicated to providing tailored solutions that leverage the power of AI to deliver automated insights and streamlined reporting.

The Power of AI, Designed for Your Business

Imagine all your data from every one of your marketing channels all together in one live, interactive report. Now, imagine that for all your client data.

Now, just for fun, imagine data-driven AI running over the top providing invaluable insights in seconds, while machine learning automates in the background producing fully bespoke and interactive reports and next-level commentary reports.

That's the power of Bundle.

Designed for your business!
